Report Summary

All applicable tests according to the referenced standard(s) have been carried out.

Product Description

Built-in type switching power supply for use in general office equipment (host equipment is not specified).

Model Differences

Models are essentially identical to each other except for type of transformer (T1 / T2), secondary circuits' layout, secondary components and electrical ratings of output.

RTW300W series: RTWx-y (without cover)
RTWx-y# (without cover)
RTWx-y* (with cover)

(Suffix: x = 1 to 3 digit number which may include a period (output voltage),
y = 1 to 3 digit number which may include a period or the letter R (output current) and which may be followed by the letter K,
# = A, B, D, J, L, M or U
* = C, E, G, H, N, S, T or V)

Models RTWx-y and RTWx-y# are not equipped with cover. Models RTWx-y* are equipped with cover.

Differences between output types are as follows:
