1st April 2025

EOL (End of Life) Notification – ZMS100

Dear customer / valued partner,

We would like to advise you that the ZMS Series is to be discontinued. The ZMS series has been a successful product for more than 10 years and has been sold globally. However current and ongoing demand now means these products have entered their end-of-life phase.

[ZMS100 Series Datasheet \(tdk.com\)](#)

This notification applies to all ZMS product codes beginning:

Product Code
ZMS100-xx

We recognise that as a past or current customer of these products, you may require additional units for existing programmes or for service spares. We are therefore offering a last time buy and ship opportunity as detailed in the table below:

End of life announcement	1st April 2025
Date last orders can be received	30th September 2025
Last shipment date	31st March 2026

Please understand that these orders would be non-cancellable and non-returnable. The standard warranty period, service and conditions will apply to product sold during this last time buy notice period.

As a future alternative to the ZMS100, we would recommend the CUS100ME. This not only has the same 2 x 4 inch footprint but also offers a 20% power increase versus the ZMS when convection cooled.

[CUS100ME Series Datasheet \(tdk.com\)](#)

For further assistance, please contact your local TDK-Lambda sales department, or your usual field sales contact or via our web-site at <http://www.uk.tdk-lambda.com/> where you can also find data on all of our current products and our comprehensive product selector web tools.

Kind regards,

David Buck
Product Manager
EMEA Marketing
